Dear Signatories, Invited Signatories, and Consulting Parties:

The Louisville Jefferson County Metro Government (LJCMG) has finalized the Programmatic Agreement (PA) for the Beecher Terrace Redevelopment Project. To access the document please visit this link to the Vision Russell website: <http://visionrussell.org/historic-preservation/section106>.

Summary of Major Modifications to Programmatic Agreement

Comments on the final draft of the PA were received from the Advisory Council on Historic Preservation (ACHP), the Kentucky State History Preservation Office (KY SHPO), and the Office of State Archaeology (OSA). A summary of the changes to the PA is provided here. Minor edits or typographical changes are not mentioned, nor are areas where wording was added to simply or clarify the text.

1-Clarification of the Lead Agency

LJCMG is the Lead Agency for the project and is listed as such throughout. Louisville Metro Housing Authority (LMHA) is a partner agency and an Invited Signatory.

2-Future Use of the Agreement

A Stipulation has been added to allow other federal agencies to use this PA to fulfill their Section 106 responsibilities in the future.

3-Clarification of the Block Grid for the Neighborhood

Changes to the street grid that will occur as part of the project are intended to improve traffic flow and create a neighborhood feel. They are not intended to recreate a historic grid. The language in the document has been clarified.

4-Terminology of Stages and Phases

The terminology referring to Stages and Phases of the project has been clarified. Phases refer to construction phases for the project. Stages refer to consultation periods. A consultation Stage may include several construction phases.

5-References to Ongoing and Completed Consultation

The document has been updated to include references to steps completed in the consultation process as distinct from steps that are remaining to be completed.

6-Unanticipated Discoveries

The Unanticipated Discoveries Stipulation has been updated to reflect the presence of the Beecher Terrace archaeological site under the entire project area.
